POST SHOW REPORT 2018

The perfect stage for success in a key growth market

With over 700 visitors from 10 countries, the second edition of Materials Handling Saudi Arabia reinforced the trade show's position as a key industry platform in the Kingdom. Major manufacturers, industry experts and supply chain players from across the region gathered to discuss promising developments in this pivotal growth market.

23 exhibitors from 7 countries presented market-leading solutions for all aspects of the Supply Chain industry, including Warehousing, Logistics and Distribution. A series of panel discussions provided were also held during the event, offering industry leaders and experts a significant platform to share specialist knowledge on emerging challenges and opportunities in the evolving Saudi market.

Forklift Challenge

Materials Handling Saudi Arabia 2018 featured the 2nd edition of the 'Forklift Operator of the Year' Challenge. More than 50 of KSA's most skilled Forklift Operators were nominated to participate in this unique competition. After the highly competitive preliminary rounds, 3 winners were chosen by the judged based on their ability to safely and efficiently manoeuvre three-tonnes of electric forklift machinery in tight and narrow spaces, replicating a warehouse environment.

Key sectors in focus at the show

Logistics & Supply Chain

Regional and international leaders in the logistics and supply chain industry showcased the latest products and solutions for competitive and profitable operations.

FMCG Industry

The latest advancements for the efficient transportation and storage of FMCG goods, such as smart inventory management, were presented by leading solution providers.

Oil & Gas

New systems, processes and equipment from reputed global brands were showcased for increased profitability and improved safety and efficiency in the oil and gas industry.

Retail Business

A world of solutions for stocking, display and distribution were on offer to ensure the right products reach the right place at the right time in this vital regional sector.

Automotive

The show featured top-of-the-range automated warehouse systems to minimise redundancies and increase materials handling efficiency across logistics, freight forwarding and cargo handling.

Pharmaceuticals

Leading providers of temperature-controlled storage as well as transportation and shipment solutions that are specifically designed for the pharma industry were exhibited at the show.
